Powers Bros. is committed to providing quality repairs and superior customer service. Gaining trust and exceeding customers' expectations is at the heart of our organization, as we give all customers an exceptional experience while having their equipment serviced. We continue to strive to be an industry leader in the industrial repair industry!

Powers Bros. Machine is a Factory Trained Devcon Applicator

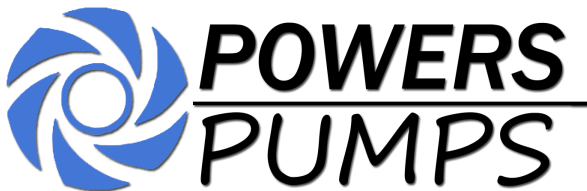

Metal -Filled Epoxy Repair

Metal-filled epoxies allow economical, fast, permanent repairs to plant and equipment. It cures quickly and resist corrosion and harsh chemicals.

Pourable compounds that provide accurate detail reproduction. Ideal for making molds, patterns, holding fixtures and forming dies.

Emergency repair epoxies cure rapidly, even underwater. Minimize spills due to leaks or accidental.

Powers Pumps offers solutions to Municipalities, Commercial and Industrial end users. Through strategic partnerships Powers Pumps can offer new equipment at competitive rates: Pumps, Blowers, Mixers Motors, Seals, Drives, Sensors, Bearing Isolators and Spare Parts.
